# Introducing Benelli Freedom Care Mixer Range

NEW Benelli 'Freedom Care' Basin & Kitchen Mixer models have been designed and manufactured with input + assistance from people involved with SDA and affiliated specialists, and with all models crafted to comply with their standards as well as AS1428.1, you can use with confidence these products.

New specific bathroom designs + products are needed, we at Benelli Global are trying to show that initiative to find and eventually supply 'New Products' we feel will service and be practical to these clients.

To be compliant with the government's vision to address the design issues of the bathroom environment, we are ensuring we stay close to and are following what the government has introduced as several changes and initiatives. These include changes to the Building Code of Australia (BCA) disability access codes, the CSIRO's 'Smarter, Safer Homes' initiative and new design guidelines through Liveable Housing Australia (LHA)4.

**Barrier Free**  
Thoughtful Living

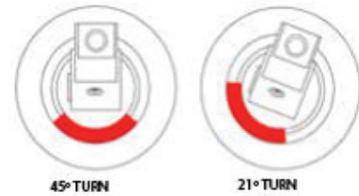

**AS 1428.1 AUSTRALIAN STANDARDS**

**TEMPERATURE LIMITER FUNCTION (TR)**

Endura cartridge has an optional ring called TR that allows limiting maximum temperature in 7 selectable steps, enabling an anti-scalding safety feature.

position	15° l/min	65° l/min	°C
1	16	4	26°
2	12,5	7,5	35°
3	9	11	43°
4	5	15	50°
5	2	18	56°
6	1	19	61°
7	0	20	65°

**TEMPERATURE & FLOW LIMITER FUNCTION (TRN)**

TRN technology, in addition to limit temperature, allows water saving at the same time thanks to a flow limiter.

The flow can be limited thanks to the screw located in the cartridge lever. By turning the screw, the flow obtained will be reduced, saving up to 22% of daily water consumption

# Extra Special Mixer Features Revealed

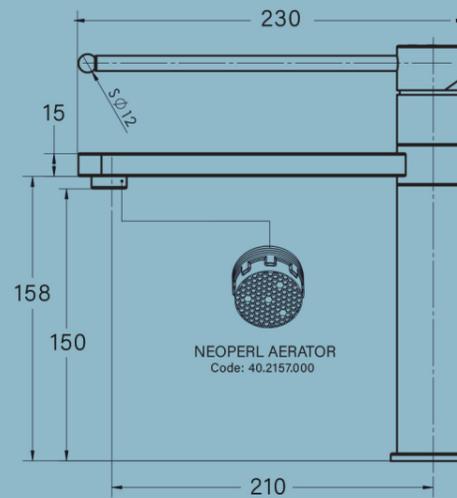

Mixer BEN-38114 Featured with Benelli Basin BEN-NCBL005 ( Sold Separately )

35mm cartridge with an extraordinary endurance: 2x standard life cycling tests, thanks to SedalOX® ceramics reinforced with our exclusive Nano Shelter Technology and a complete set of technologies.

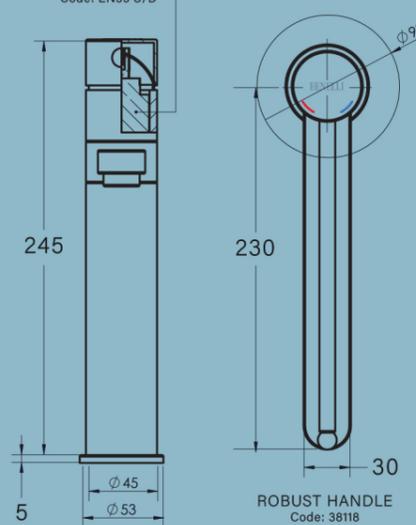

It also includes DUE and TR technologies for water saving and control.

**Sedal Anti-Scalding Cartridge**  
CODE : EN35-S/D

NEOPERL AERATOR  
Code: 40.2157.000

**SEDAL (ANTI-SCALDING) CARTRIDGE**  
Code: EN35 S/D

ROBUST HANDLE  
Code: 38118

**Robust Handle Upgrade**  
CODE : 38118

\*It is generally considered that laminar flow outlets are used in lieu of aerated outlets for clinical hand washing, as laminar flow does not draw ambient room air into the water stream, avoiding any possible introduction of airborne bacteria.

**PERLATOR®**  
**HONEYCOMB Laminar**

Improved lime protection: integrated HONEYCOMB structure replaces conventional wire mesh screens prone to lime build-up.

- crystal clear, non-splashing water stream
- extended life
- perfect stream quality even under difficult flow conditions
- very low noise level
- damage proof: unlike conventional wire mesh screens, the HONEYCOMB structure cannot be crushed
- integrated anti-clogging dome screen filters sediments and particles

**Honeycomb Laminar Flow System**  
CODE : 40.2157.000

**FEATURES TO ALL STANDARD BENELLI FREEDOM CARE MIXERS**
